

EverGreen

FABRICS

by Dickson Coatings

**FABRICS THAT  
RESPECT PEOPLE AND THEIR  
ENVIRONMENT**

**DICKSON**<sup>®</sup>  
COATINGS

The manufacturer Dickson Coatings, created EverGreen Fabrics as part of its respect and commitment to the environment and human health.

## ECO-FRIENDLY FABRICS

EverGreen Fabrics consist of a polyester base cloth with a water-based coating.

**THEY ARE SYSTEMATICALLY:**

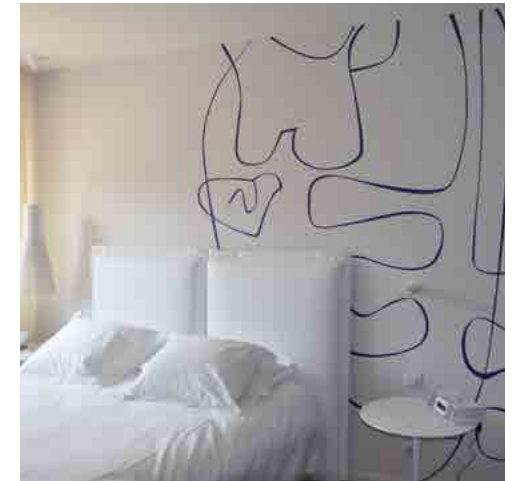

**PVC FREE - PHTALATE FREE - FORMALDEHYDE FREE  
PHOSPHATE FREE - GLYCOL ETHER FREE**

EverGreen Fabrics' eco-friendly approach reduces the environmental impact during the life cycle, from product design right through to destruction.

## A RECOGNIZED ECOLOGICAL APPROACH

EverGreen Fabrics' environmental approach has been validated by the Life Cycle Assessments (LCA) according to the norms ISO 14 040 - 14 044.

Human health qualities are assured by the following certificates:

**EverGreen**  
FABRICS

EverGreen Fabrics are ideal for communication purposes and decoration, and are suitable for digital printing.
